HEADQUARTERS UNITED STATES AIR FORCE
WASHINGTON DC

28 Aug 2001

MEMORANDUM FOR SAF/FMBMM

FROM: AF/ILEO

SUBJECT: Change in Air Force Element of Expense Investment Codes (AFEEICs) 522, 524, 527, 528 and 529 Definitions

Due to implementation of the OSD-directed Facility Sustainment Model (FSM) in FY02, we must update the names and definitions of several AFEEICs. This will allow us to properly program and track all costs associated with Sustainment, Restoration and Modernization (SRM).

Request the title of AFEEIC 522 be changed for FY02 from "Repair (Class R) Projects" to "Restoration and Modernization (Repair)" and the definition be changed to the following:

Restoration and Modernization (Repair). Repair (Class R) Projects. Projects necessary to restore real property and real property systems or components to such condition that they may effectively be used for their designated functional purposes. Reference current applicable Air Force Instructions and Public Law for repair project limits and approvals.

Request the title of AFEEIC 524 be changed for FY02 from "Minor Repair Less than \$100K" to "Sustainment Repair," and the definition be changed to the following:

Sustainment Repair. Facility Sustainment Model (FSM) repair projects necessary to keep an inventory of facilities in good working order, including major repairs or replacement of facility components that are expected to occur periodically throughout the life cycle of facilities. Does not include work to accomplish a change in functional use. Reference current applicable Air Force Instructions and Public Law for repair project limits and approvals.

Request the title of AFEEIC 527 be changed for FY02 from "Major Maintenance and Repair In-House Projects" to "Restoration and Modernization (Repair--In-House)" and the definition be changed to the following:

Restoration and Modernization (Repair--In-House). Accounts for in-house repair projects to restore facilities damaged by inadequate sustainment, excessive age, natural disaster, fire, accident, or other causes. Also includes in-house repair projects to alter a facility to implement new standards or replace building components that typically last more than 50 years.

Request the title of AFEEIC 528 be changed for FY02 from “Minor Construction--In-House” to “Restoration and Modernization (Minor Construction, Class MC--In-House)” and the definition be changed for FY02 to the following:

Restoration and Modernization (Minor Construction--In-House). Minor construction (Class MC) in-house projects. Accounts for in-house minor construction projects to create new or enlarging existing real property facilities, convert a facility or portion of a facility from one primary function to another, purchase/install real property installed equipment, etc. Reference current applicable Air Force Instructions and Public Law for minor construction project limits and approvals.

Request the title of AFEEIC 529 be changed for FY02 from “Minor Construction (Class MC) Projects” to “Restoration and Modernization (Minor Construction, Class MC)” and the definition be changed for FY02 to the following:

Restoration and Modernization (Minor Construction). Minor construction (Class MC) projects. Projects that build, develop, convert, or extend real property and real property systems and components. Reference current applicable Air Force Instructions and Public Law for minor construction project limits and approvals.

If additional information is required, our POC is Lt Col Scott Russell, AF/ILEOP, 604-4707.
